

Young Voices Group

Our Vision:

“There is opportunity that every young person with a visual impairment should receive and experience a good education and feel empowered in an inclusive society.”

Our Mission Statement:

TPT Young Voice volunteers aim to act as a voice for children and young visually impaired people. Young Voices will inform and educate society by challenging negative perceptions of visual impairment and advocating for positive change at a local and national level. Young Voices will make a difference by working to improve experiences within education, employment and social and leisure activities.

About Us:

Young Voices is made up of a group of volunteers from across England, aged 14 – 18, who want to bring about positive change for their community. They meet once a month to talk about their experiences and work on projects that matter to them that will make a difference to the lives of blind and partially sighted young people.

Our Aims and Objectives:

- To build meaningful relationships with other youth panels and other organisations that work with young blind and partially sighted impaired people to develop and help with best practice and decision making.
- To co-produce projects and events that feature Young Voices and reflect the young blind and partially sighted community, as well as offering the chance for other young people to get involved with TPT.

- Making Young Voices heard – to create a strong and focused voice across the VI community. We want to develop our experiences and skills to help others and support organisations and other young people in finding their way.
